

RS152P-LED

Max power:	30 W
-------------------	------

Max luminous flux:	3000 lm
---------------------------	---------

Basic info

Recessed-mounted downlight. Luminaire is made of die-casting aluminium, and powder coated. There are three available optics version - 15, 24 and 36 degrees. Light source can be customized considering luminous flux, power, colour temperature or CRI. Universal use lamp, easy to mount. Downlight can be rotated up to 355 degree and leaned to 50 degree.

Technical parameters

Max power	30 W
Max luminous flux	3000 lm
Beam angle	15°, 24°, 36°
Light source	COB Tridonic
light output ratio	>80%
Input Voltage	220 - 240V AC, 50 - 60 Hz
Power supply	external, constant current with output current regulation
Mounting hole	Ø 144mm
