

SEDE 180x2-LED

Max power: 90 W

Max luminous flux: 9000 lm

Basic info

Square-shaped downlight for recessed mounting. Luminaire is made of die-casting aluminium, and powder coated. There are three available optics version - 15, 24 nad 36 degrees. Light source can be customized considering luminous flux, power, colour temperature or CRI. SEDE lamps are available in three version - with one, two or three COBs.

Technical parameters

Max power	90 W
Max luminous flux	9000 lm
Beam angle	15°, 24°, 36°
light output ratio	>80%
Input Voltage	220 - 240V AC, 50 - 60 Hz
Power supply	external, constant current with output current regulation
Light source	2xCOB Tridonic
