

FUT 038S - LED controller RGBW 12A

Basic info

FUT038S is RGBW LED controller. It has auto transmission and synchronisation functions, which means limitless range while preserving 30m distance between controllers. Controllers are synchronising within their range. They are transferring parameters so user can get one, similar light effect with few controllers without delays.

FUT038S is designed for RGB LEDs only. Always use controller dedicated to LED system.
