

RGBW AMPLIFIER 12 - 24V 4X6A 24A

Basic info

RGBW AMPLIFIER - 24A - 6A/channel

- designed for connecting RGBW led tapes (12 or 24V) into longer sequences
- high efficiency - 288W for 12V, 576W for 24V

Technical parameters

Type	4 channels R/G/B/W, common anode
Voltage	12V ~ 24V DC
Power	288 W ~ 576 W
Current	24A, 6A/channel, 4 channels
